Tools

Git, VS Code

LANGUAGES

English
Professional working proficiency

Kinyarwanda
Native

EXPERIENCE

Junior Backend Developer (Intern)2025 – Present

Techwise · Kigali

- Engineered production-grade REST APIs using FastAPI, covering authentication, role-based access, routing, and core business logic.
- Improved database performance by optimising queries and contributing to schema design and normalisation on live systems.
- Collaborated with senior engineers in a Git-based workflow, gaining exposure to code review and deployment pipelines.

Freelance Web Developer2025 – Present

Self-employed

- Scoped, built, and deployed websites and backend systems for small businesses, managing the full project lifecycle independently.
- Handled client communication, requirement gathering, iterative revisions, and on-time delivery across multiple projects.

IT Support Assistant2024 – 2025

World Mission High School Lab · Kigali

- Diagnosed and resolved hardware, software, and network issues across lab equipment used by students and staff.
- Maintained infrastructure reliability through proactive setup and routine maintenance, reducing downtime.

EDUCATION

Level 5 Diploma in Software Development2023 – Present

World Mission High School · Kigali, Rwanda
